❝ PERSONAL STATEMENT

Creative, highly motivated Front-end Developer / UX Designer / Manager with experience creating responsive websites & web-apps from conception to completion. Experience developing robust Pwas with a focus on delivering compelling user experiences.

💼 EXPERIENCE

*Lead UI Developer (Associate Manager) in **ACCENTURE** in a team of 20. Responsible for defining, implementing and maintaining UI/UX prototypes, solutions, policies and also coordinator and owner of the UI/UX Guild and branding committee.*

Connects / ONBOARDING SOLUTION
April 2017 - December 2017

1. Implemented two Angular UI solutions based on prototypes provided.
2. Promoted to Lead UI Developer after 8 months .
3. Conducted multiple user testing sessions, captured feedback and defined our personas.
4. All code was componentized, reusable, leveraging Angular/Bootstrap, 100% tested with Jasmine, linted, WCAG compliant, optimised for speed and fully responsive.

Client Business Projections / CLIENT-METRICS DASHBOARD
December 2017 - June 2018

1. Transferred to Madrid to build a UI feature and conduct a major Angular migration.
2. Made site be responsive mid-way through the project and migrated system from Bootstrap 3 to 4. Also temporarily filled in as Scrum Master for 3 months.
3. Redefined Scss architecture to be modular, introduced Scss lint script and unused Scss script, refactored Scss and leveraged all Scss functionality - variables, mixins etc.

Nav / EMPLOYEE SERVICE AGGREGATOR
June 2018- August 2018

1. Pwa mobile app built using Ionic, Stencil, Angular & Micro-services. Nav aggregates internal data and centralizes it in one place. Deployed to iOS and Android.
2. Built entire front-end, following the Atomic Design strategy and based on the prototype.
3. Completed in 3 months and achieved global rollout to 470k employees.

Automated Commentary / CLIENT-METRICS NLG SOLUTION
August 2018- Present

1. Natural Language Generation solution for building and surfacing client metric based sentences.
2. Created Angular Material theme, CSS Grid (and fall-back IE mixin) layout, CSS keyframe animations, Scss mixins, placeholders, functions and color palettes.
3. Implemented guided app walk-through.
4. Wrote app-state service and implemented feature toggles on UI components.
5. Promoted to Associate Manager in December 2019.

The UI/UX Guild / MONTHLY MEET-UP
April 2017 - Present

1. Making presentations, organising lunch, meeting rooms, presenters, speakers and excercises. Spreading Design Thinking methodology across our department.
2. Condensed three day Design Thinking Academy workshop into three Guilds.
3. Delivered approximately 30+ UI/UX Guilds.
4. Defined and published UI/UX Policies - our stance on all aspects of UI/UX.

*Front-end Developer and Project Manager at **VISUAL ID**. Responsible for the design, functionality & maintenance of all client-side access points and PM duties.*

System Updates / MAINTENANCE AND IMPROVEMENTS
July 2015 - April 2017

1. Leading system upgrade from Bootstrap 2 to 3 and all dependent libraries.
2. Redesigning and implementing two internal tools, used by over 4000 clients. See Flikr.
3. Improving system functionality and updating interfaces with more modern designs.
4. Creating wireframes/storyboards, conducting usability tests and implementing feedback.

Visual ID / BROCHURE SITE
July 2015 - September2016

1. Customising WP site to align with Visual ID identity and migration of old blog.
2. Conducting usability testing for qualitative analysis and implementing feedback.
3. Completed project 2 weeks before deadline.

Doddle / MARKETING MATERIAL BUILDER & BROCHURE SITE
September 2015 - October 2016

1. Built Doddle Web app, wizard, WP brochure site and blog. See Github & Portfolio.
2. Managed team of 6 - meeting deadlines, Scrum ceremonies, delegating and interfacing.
3. Ensuring Doddle renders and behaves correctly on all browsers.

*Creator of **SIMPLE CSS**, a CSS generator with a focus on user experience. This part-time project gained attention in September of 2016 and was sold two years later for profit.*

Simple CSS / CODE SNIPPET GENERATOR
September 2016 - September 2018

1. Created a free online solution for generating Front-end code snippets such as CSS vendor-prefixes, media queries, unit convertion, image filters, fonts and more.
2. Integrated with WP blog and built job board built from scratch - PHP, Stripe and MySQL.
3. Ran for 2 years, monetized traffic and sold for profit in 2018.

Along with the above I have worked on many other internal and hobby projects. I always stay busy keeping up to speed with the latest and greatest development tools and practices.

Other Projects & Freelance / PORTFOLIO, GITHUB & FLIKR
September 2011 - Present

1. Resume Matching, ATP, TCF - created prototypes, UI solutions & web-metrics.
2. Cryptocurrency profit/loss web app - Angular & APIs.
3. Rewrote portfolio site - Vue and Veutify.
4. Paint the weather web app - Angular and APIs.
5. Quote sharing web app - Bootstrap & Twitter API.
6. Site and business card design for a relative's new business - Bootstrap/Photoshop.
7. UFC web app developed as a personal side project - Angular.js.
